

Replace this file with your CV

The portfolio is configured to open `public/cv/cv.pdf`.

Replace this placeholder with your current PDF CV using the same filename.

No website code needs to change.

01 Update your details

Add your name, email and professional links in `lib/site.ts`.

02 Add project evidence

Use `CONTENT_GUIDE.md` to replace reserved text and project imagery.

03 Replace this PDF

Export your CV as `cv.pdf` and place it in `public/cv/`.
